

WEBINAR Open Access

Are you wondering what Open Access is about and how your research can benefit from it?

If so, register for our webinar!

6th March 2014

10 am Brussels Time

5 pm in Beijing

2.30 pm in New Delhi

1 pm in Moscow

7 am in Rio de Janeiro

11 am in Cairo

This webinar is hosted by Euresearch, the Swiss network mandated by the State Secretariat for Education, Research and Innovation.

Programme

- | | |
|-------------|---|
| 10:00-10:05 | Introduction – <i>Juliane Sauer – Euresearch, Switzerland</i> |
| 10:30-10:45 | Open Access for Researchers – <i>Daniel Spichtinger – Policy Officer Open Access, DG Research & Innovation (Science policy, foresight and data)</i> |

Speakers

Juliane Sauer – National Contact Point (NCP) for the Marie Skłodowska-Curie Actions at Euresearch, Switzerland

Juliane is NCP since 2008 and supports in this function researchers from all over the world who apply for the MSCA-fellowships with a Swiss host institution. Euresearch is part of the NCPs' network PeopleNetwork+.

Daniel Spichtinger – Policy Officer Open Access Daniel is policy officer for open access at the European Commission since 2012. In this capacity he contributes to the development of open access policy in Horizon 2020, and the European Research Area (ERA), interacting with all relevant external stakeholders.

Open Access for your research

Open Access literature is digital, online and free of charge. OA publications are usually free of copyright and licensing restrictions. As such, it became during the past years a valuable information source for researchers. It is expected that Open Access will become more important for scientific publications in the future.
