Europe in a changing world - inclusive, innovative and reflective societies

The first aim is to gain a greater understanding of the societal changes in Europe and of their impact on social cohesion and to analyse and develop social, economic and political inclusion and positive inter-cultural dynamics in the EU and with international partners, through cutting-edge science and inter-disciplinarity, technological advances and organisational innovations

Call EURO -> The new ideas, strategies and governance structures which will help Europe to surmount its current severe deficiencies emerged in consequence of crisis.

Call YOUNG -> Strategies and actions for the integration of the young generation in an innovative, inclusive and sustainable Europe.

Call INT -> The global dimension is also included with a particular focus on the strategic choices Europe should enhance in order to further its research and innovation capacities and strengthen its principles and impact in several important regions of the world.

Europe in a changing world - inclusive, innovative and reflective societies

The second aim is to foster the development of innovative societies and policies in Europe through the engagement of citizens, civil society organisations, enterprises and users in research and innovation and the promotion of coordinated research and innovation policies

Call INSO -> The development of new forms of innovation that can play a big role in overcoming the crisis and creating opportunities for growth. Such efforts include innovation in the public sector, where new and creative ways of delivering public services can improve efficiency and quality, while reducing costs and lessening the burden on citizens and enterprises.

Europe in a changing world - inclusive, innovative and reflective societies

The third aim is to contribute to an understanding of Europe's intellectual basis, its history and the many European and non-European influences, as an inspiration for our lives today

Call REFLECTIVE -> Europe should improve the understanding of its cultural heritage and of its identities in order to strengthen cohesion and solidarity and to encourage modern visions and uses of its past.

Understanding of cultures researched by scientists will attempt to see historical and contemporary commonalities and/or bridges between differences. In these efforts, new technologies and digital cultural heritage should play an important innovative role as they enable new and richer interpretations of our common European culture while contributing to sustainable economic growth.

The screenshot displays the 'Calls - Research Participant Portal' interface. The main heading is 'RESEARCH & INNOVATION Participant Portal'. The left sidebar contains navigation options for 'EU Programmes 2014-2020' (Search Topics, Call Updates, Calls, H2020, Research Fund for Coal & Steel, COSME, 3rd Health Programme, Consumer Programme) and 'FP7 & CIP Programmes 2007-2013' (Calls). The main content area is titled 'Calls for Proposals' and features a search bar, a 'Horizon 2020' filter, and a list of call topics with checkboxes. Below this, there are filters for 'Status' (Forthcoming, Open, Closed) and 'Sort by' (Planned, Opening Date, Deadline, Call title, Call identifier). The main list displays several call cards, including 'Industrial Leadership', 'Societal Challenges', and 'NEW FORMS OF INNOVATION', each with specific deadlines and opening dates.

The aim is to help build effective cooperation between science and society, to recruit new talent for science and to pair scientific excellence with social awareness and responsibility.
